Curriculum vision statement for Physical Education

At Brington School we are very lucky to have a large outdoor space with sporting equipment that children are able to use in formal lessons that are planned in a cycle to maximise exposure to different sports and activities, and at break and lunch times. We believe healthy children learn better and are committed to the children taking part in a daily mile or movement breaks to enhance their learning opportunities. In the summer months we are fortunate to have a school swimming pool on site, so are able to provide a varied curriculum that ensures all children of all abilities have the chance to develop skills in many different sporting activities.

Intent

- All children will follow the progression of skills and develop their physical development skills in the following areas…
    - Dance
    - Gymnastics
    - Games
    - Outdoor pursuits
    - Swimming

- All children will have the opportunities to choose different skills in their break and lunch times including cycling in Key stage 1 and cycling proficiency in Key stage 2.

- All children will be encouraged to take part in sporting clubs and represent their house teams or their school at competition level.

- Our school curriculum is planned and supported through the Hunts schools partnership program, so teachers can continually develop their own skills and knowledge.

Implementation

- Teachers plan the curriculum road maps together to share expertise and ideas. The road maps ensure that children's learning builds on prior learning and knowledge.

- Hunts schools partnership provide ongoing training and expertise throughout the year by team teaching alongside staff at Brington School.

- Lessons are sequenced to provide a development of skills alongside subject knowledge about how to use these skills.

- Children's work is assessed during the lesson and support or further challenges are given throughout the lesson.

- Children are given opportunities to represent their school in county competitions. Any pupils taking part in sporting activities outside of Brington school share their achievements as part of our weekly celebration assembly.

Impact

- The work pupils at Brington School achieve is of a high standard, Physical education works alongside our school STAR values and encourages children to be ambitious, have self belief, respect each other by giving feedback to peers during lessons and being part of a team.

- Children are confident in a variety of different sporting activities and enjoy their learning and competitions.
