Curriculum vision statement for R.E.

In R.E. we want everyone to have the chance to be able to discuss Christianity and interlink / understand other faiths. We want all pupils to have the knowledge to help them understand Christianity through the headings of God, Creation/Fall, People of God, Prophecy/Wisdom, Incarnation, Gospel, Salvation and Kingdom of God.

In addition, they will explore other world faiths and have an understanding of them.

Intent

All children will follow Understanding Christianity and The Emmanuel Project, interlinked with the topics they are studying, when appropriate. These schemes allow the children to gain progression in their understanding of Christianity. The Emmanuel Project introduces the children to other faiths; Islam, Judaism, Sikhism, Hinduism, Buddhism and will allow the children to draw on similarities and differences between each.

- All children will be listened to and encouraged to ask questions and reflect on their own experiences plus the experiences of others.

- All children will learn about other faiths and show consideration and respect for those of differing views to their own.

Implementation

The RE teacher, alongside class teachers, will plan the curriculum road map and allow for expertise and ideas to be shared. Using the road maps ensures that the curriculum is fully taught and that the children leave primary school with a good understanding of Christianity and other global religions.

Rules for discussion are set by the class teacher. All visitors will know of these rules and model expectations in the same way.

- All children will take part in daily collective worship either as a class or as a whole school.

- All children will begin and end their day with a prayer, led by a member of staff.

- An RE Council will be formed by the end of autumn 1, 2021 and a weekly prayer group will be held at lunchtimes.

Impact

- All children will have a good understanding of Christianity,

- All children will be able to share their knowledge of other faiths and show consideration for others.

- All children will have skills which will prepare them for the outside world.
