Significant People in History

Learn that William the Conqueror ordered a survey to discover the resources and taxable values of all boroughs and manors in England. This took over a year to complete. It valued England at £37,000 It was the first survey of England and was written in Latin.

Inventions and Discoveries

Understand that historians believe the Domesday book was named after the biblical day, which was when Christ returned to judge the living and the dead.

Specific Knowledge

Know where Brington is located with reference to the Earth. Make a map of the school grounds using knowledge of main features and a key.

Use knowledge about architecture (including roof materials and shapes, window size and shapes, heating systems and age of building materials) to establish the dates of building construction.

Brington was listed in the Domesday Book as Breninctune and that there was no church and just one manor at Brington with an annual rent of £4 in 1066. There were 14 households with a population in 1086 between 49-70 people.
